Executive Summary

Software Developer with 4+ years of experience in full stack and .NET development, skilled in C#, ASP.NET, and MS SQL Server. Experienced in building scalable web applications and developing console applications to automate background processes for logistics, order management, and HRMS systems. Strong in both frontend and backend development.

Actively seeking opportunities to contribute to impactful software projects in a growth-focused environment.

Experience

Infoneo Technologies Pvt Ltd, Noida – Software Developer

Jun, 2024 - Aug, 2025

Remote for Nabfins Ltd, Bengaluru, Karnataka

- Designed and delivered multiple HRMS modules using ASP.NET and MS SQL Server, enhancing data accuracy and scalability for 500+ employee records.
- Created RESTful Web APIs to enable seamless data exchange between modules, reducing integration time by 30%.
- Developed a C# console application to automate scheduled background tasks such as attendance marking, cutting manual workload and improving task reliability.
- Provided technical support and resolved system issues with a 95% first-response resolution rate while operating independently in a remote, client-facing role to ensure timely delivery of critical HR functions.

Gurusoft Technology Pvt Ltd, Thanjavur – Software Engineer

Apr, 2021 - May, 2024

- Led the design and development of a dynamic web portal using ASP.NET, HTML, CSS, and JavaScript, enhancing system performance and delivering an improved user experience.
- Spearheaded the architecture and successful deployment of three end-to-end software projects, writing 1,000+ lines of code daily, resulting in zero critical production incidents and 99.99% system uptime.
- Championed best practices in coding, testing, and deployment, resulting in a 30% decrease in post-deployment defects.
- Researched and integrated emerging technologies, accelerating development cycles and improving overall system performance.

Technical Skills

Programming Languages: C#, JavaScript, HTML, CSS, PHP, VBScript

Frameworks & Libraries: ASP.NET, WPF, Razor Pages, ASP.NET Core (familiar), MVC Core (familiar), React & Redux (familiar)

Mobile Development: Xamarin Forms (Android & iOS), MAUI

Backend & APIs: Web API, C# Console Applications.

Databases: MS SQL Server, MySQL

Tools & Technologies: Visual Studio, Git GUI, TFS, Gogs Web, Postman, VS Code

Projects

HRMS System

Infoneo Technologies Pvt Ltd (Client: Nabfins Ltd, Bengaluru)

- Engineered core modules for a custom HRMS using ASP.NET and MS SQL Server, streamlining HR operations and improving data accuracy.
- Automated attendance processing by creating a C# background utility, reducing manual workload and increasing task reliability.
- Enhanced data integration by implementing RESTful APIs, enabling smooth communication between system components and reducing update time.
- Provided technical support and resolved critical issues in a remote team setup, ensuring 99% system uptime and consistent delivery of updates.

Order Management & Logistics Systems

Gurusoft Technology Pvt Ltd

- Engineered a robust Order Management System (OMS) for bulk medicine procurement using HTML, CSS, JavaScript, and RESTful APIs; automated key workflows, reducing manual input and improving order accuracy across 50+ clinics.
- Built SSW (Storage & Warehouse System) and TMS (Transport Management System) using ASP.NET and WCF services, optimizing inventory tracking and improving dispatch efficiency.
- Implemented end-to-end solutions for order placement, pickup/delivery scheduling, and warehouse management, enabling real-time logistics visibility and reducing turnaround time by streamlining core operations.

Education

Pavai College Of Technology, Namakkal - B.E - Computer Science And Engineering

Jun, 2017 - Apr, 2021

University: Anna University

Percentage: 74%
